Hon'ble Governor of Andhra Pradesh Sri Biswa Bhusan Harichandan's appeal to people of Andhra Pradesh on corona virus

"I appeal to the people of Andhra Pradesh to observe all the precautionary measures as advised by the medical professionals to avoid spread of novel coronavirus COVID-19.

I appeal to people to stay at home and avoid all non-essential travel. Wash your hands frequently with hand sanitisers, cover your face with face masks in case you experience symptoms of fever, cough and cold. Clean the surfaces touched by hand, maintain social distancing, avoid gathering of more than ten people. Take care of elderly people at home.

There is no need to be panic. In case any symptoms are noticed, contact the call centre, consult doctors at designated test centres set up by govt, immediately and follow their advise.

I also appeal to the people to avoid visiting religious places, till the situation becomes normal or as advised by the authorities, from time to time.

By taking necessary precautionary measures, we can win the war against novel corona virus together and protect ourselves, our families, our society and our nation.
