AP Governor congratulates scientists and doctors for successful launch of vaccination programme

Vijayawada, January 17: Hon'ble Governor of Andhra Pradesh Sri Biswa Bhusan Harichandan congratulated the Indian scientists behind the successful development, manufacture and rollout of the two Covid-19 vaccines for country-wide launch on January 16. Governor Sri Harichandan said the scientists with their untiring efforts have fulfilled the aspirations of the people of the country by making the vaccines available to people in a very short time. Governor Sri Harichandan also congratulated the officials of Medical & Health and Family Welfare departments and doctors in the State for the successful conduct of State-wide corona vaccination programme in first phase for the benefit of health care professionals and frontline workers as per guidelines of the Central government.
